

SMARTDOCS

for Proposal Writers

Write Once. Approve Once. Use Everywhere.

Create Better
Proposals Faster

Content Reuse in Microsoft Word and SharePoint Environments

**SmartDocs is the
only complete
content management
and reuse solution
for Word users**

Automate proposal assembly out of existing,
approved Microsoft Word or Excel content

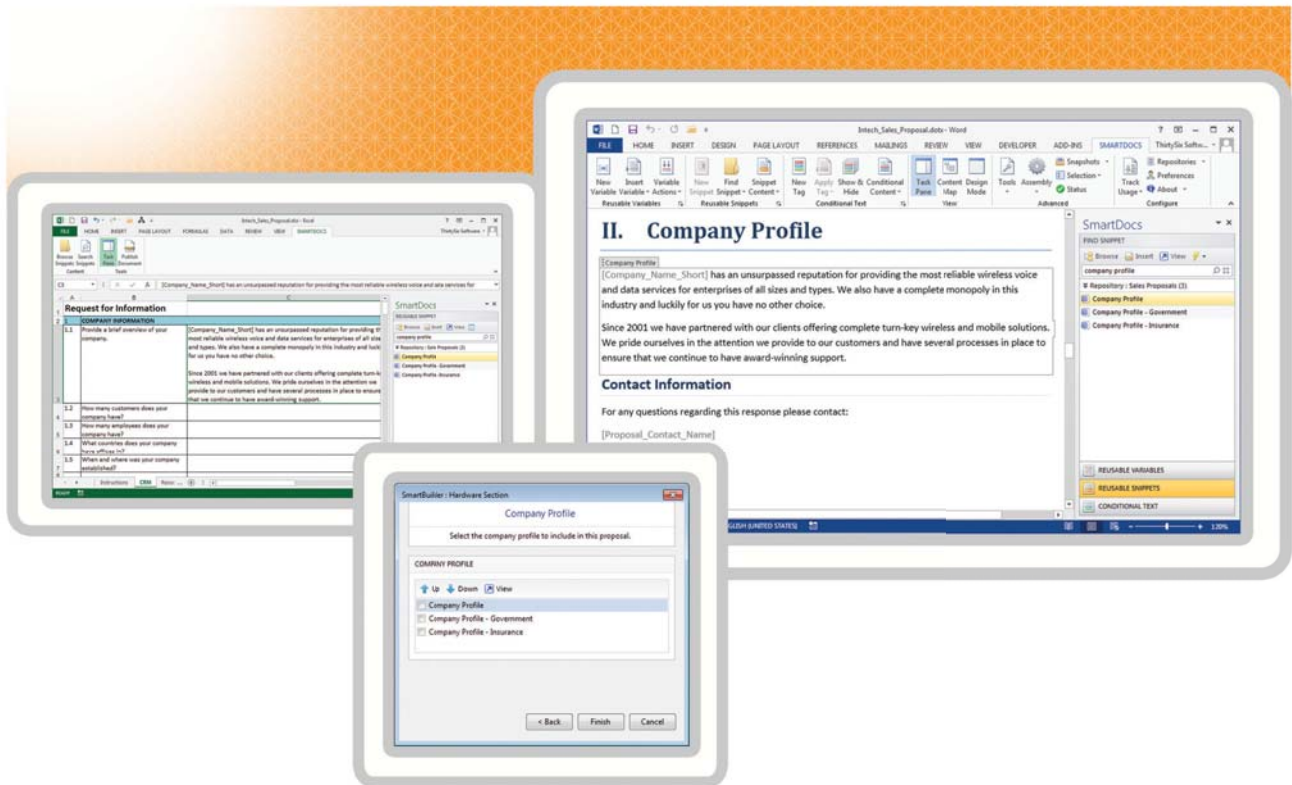

Improve both quality and consistency of
RFP creation

Fully customize your document automation

Centralize your proposal content knowledge
base; get what you need when you need it

Visit www.thirtysix.net to learn more:
Videos • Pricing • Blogs • And More!

Why SmartDocs?

- Reliable, easy, customizable
- Affordable and scalable to any size team
- Create reliable RFP responses easily in Word and Excel
- Share text, tables, graphics, and charts across the team from anywhere
- Improve the quality of information to your clients to win more bids

Do you feel like you're writing and rewriting the same RFP responses over and over again?

There is a better way to find what you need. Spending 50% of your time searching through old proposals in order to create documents is a waste of valuable time and is unreliable.

With SmartDocs, you can easily find what you need, when you need it. Even better, you'll eliminate mistakes. Never again will you leave the wrong information in your proposal responses. Submit the first, and best, response.
